Place top down or  
bottom up  
Arm position can vary  
depending on baby.

### Benefits of Wrapping

### Easy access:

Easy nappy changes  
and car or pram seat  
placement - just lift up  
Adjustable neck

### Peace of Mind

Wrapping is a useful method to help babies settle and sleep on their back.

Scientific studies have shown that wrapping can have a calming, sleep-promoting effect on young babies.

Studies have shown that wrapping can promote more sustained sleep and reduce the frequency of spontaneous awakenings.

Some studies have shown that wrapping in infants sleeping on their back is associated with reduced Sudden Infant Death Syndrome (SIDS) risk.
